

**THE ORIGIN**  
Sasoli

**THE ORIGIN** North of Goa,  
Sasoli Near New Coa airport (Mopa)

# *Power of land*

## The Demand Catalysts for the 21<sup>st</sup> Century

### **Peaking world population**

With the global population topping out, an unmatched scramble for land will make it the most valuable commodity.

### **Focus on well-being**

Covid has irrevocably transformed our way of life & land helps us stay cocooned in an ecosystem of wellness and security.

### **Experience over fixed possessions**

Millennials & GenZ prefer owning land only if it encourages a sense of community, personal growth & wellness.

### **Climate change lifestyle**

As the largest lifestyle modifier, climate change will prompt a pivot towards sustainable living which can only be fully explored on your own plot of land.

# Land Gives You 4 *Avenues of Growth*

## 1 APPRECIATION

Land is the only asset that will always appreciate through every downturn. Given the exceptional population rise, good land parcels will be worth their weight in gold.

## 2 RENTAL

Once your property is ready, you can put it out as a homestay/ guest house. It literally becomes a money making machine for every minute that you are away.

## 3 SECURITY

Land is among the safest investments possible as it has a physicality to it that you can possess rather than rely on banks or financial institutions for virtual value.

## 4 EXPERIENTIAL

A development that is experiential appreciates at least 2X/3X faster than a simple condo, villa or plot of land in a small development that offers only basic amenities.

**THE ORIGIN**  
Sasoli

*Nature. Wellness. Serenity.*

**3-Dimensional Lifestyle Experience**

Location, Layouts, Amenities and Most Importantly Nature - all these factors characterize our project as a destination that offers holistic living among idyllic environs.

As one of the largest wellness-themed projects in the country, The Origin-Sasoli encompasses every tenet of an enriched lifestyle accentuated by the goodness of nature.

# Why the Origin

Buying an experience, not just land

## Hassle-free Ownership

With a hassle-free registration process in addition to digital mortgaging & selling procedures through mobile phones, enjoy smooth ownership of experiential ecosystems with anchors like resorts, event arenas, glamping sites, organic farming areas, and much more.

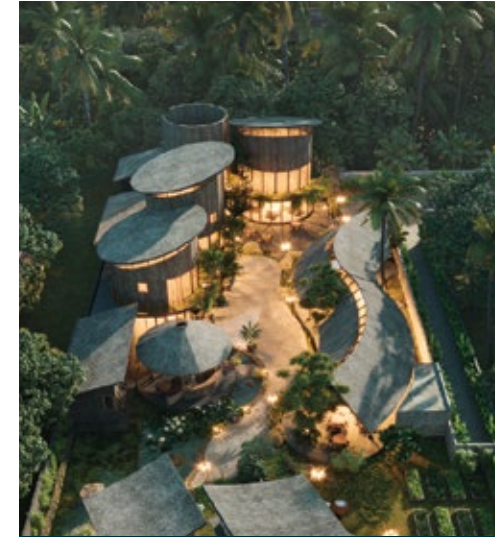

## Long-term Return

Each development is an aggregation of huge parcels of land. Our endeavor is to create developments of over 600 acres in size and add multiple anchors that are a boon for both tourists and residents, creating a wave of unprecedented demand and subsequent profit as well as rewarding rental.

## Liquidity

Ease in liquidating makes land an ideal Real Estate investment choice. Compared to other real estate assets such as apartments and other properties that are already constructed, land is a more desirable possession due to the ease of liquidity.

## Secure Asset

Counted among the safest investments, you can reap the rewards of possessing a physical asset that you can rely on. Land is the only real, Real Estate Asset. Land is longer than life, a treasured possession cherished by all and passed on through generations.
